

Located in Hyderabad | (f/m/div)

BI Analyst

Your responsibilities:

- Be part of the team responsible for managing the "Data Supply Chain" across the Otto Group ensure the supply of data for data-driven business decisions.
- Support us in significantly increasing the usability and impact of our data platform for real-time and batch processing.
- Together with your team, you will be responsible for the design and implementation of our new, high-performance and robust BI platform in the Google Cloud for big, fast & smart data.
- In addition to processing and preparing the data along its entire lifecycle in our data pipelines of data stream processing, you will also create tools & frameworks for the efficient use of the new BI platform.
- With a strong customer focus, we create the basis for all BI applications, a uniform understanding of data, transparency along the data processing and meet all legal and regulatory requirements. True Self-Service BI.

Your qualifications:

- You have hands on experience with designing and developing reports using cloud based BI tools and technologies, preferred Power BI.
- You possess strong understanding of the stakeholder's strategic goals and the ability to align report development accordingly.
- Excellent analytical skills to identify key information needed by different departments and users.
- Proficiency in data visualization concepts and techniques to present data in a clear and meaningful manner.
- Strong problem-solving abilities to address performance bottlenecks and optimize report loading times.
- Basic development skills in SQL
- Confident handling of relational datamodels
- You are a team player and have experience of working in international teams

More than just IT.

OSP is committed to fostering a diverse environment, and we work hard to ensure that everyone feels comfortable bringing their best, most authentic selves to work every day. We are committed to equal opportunity to all qualified applicants without regard to race, color, religion, creed, gender, national origin, age, disability, veteran status, sex, gender expression or identity, sexual orientation.
